Published for the Association for Asian Studies

The Journal of Asian Studies (JAS) has played a defining role in the field of Asian studies for over 75 years. *JAS* publishes the very best empirical and multidisciplinary work on Asia, spanning the arts, history, literature, the social sciences, and cultural studies. Experts around the world turn to this quarterly journal for the latest in-depth scholarship on Asia's past and present, for its extensive book reviews, and for its state-of-the-field essays on established and emerging topics. With coverage reaching from South and Southeast Asia to China, Inner Asia, and Northeast Asia, *JAS* welcomes broad comparative and transnational studies as well as essays emanating from fine-grained historical, cultural, political, and literary research. The journal also publishes clusters of papers that present new and vibrant discussions on specific themes and issues.
